A Brooklyn reporter has found his experiments in alchemy, put into a common morter a mixture of salt-tion with the Stakes trial, which he

nescountable reason, to dread interbe remembered that on the first trial a rumor arose that some of Jay Gould's men were to wreak summary vengeance upon Stokes, and each day when the court rose, Sheriff Brennan's posse of officers would close around the prisoner in threatening force. There may have been some cause for alarm then; there is certainly none new. Yet the sapient New expansive powers of steam. This York police are determined to surround Stokes' case by a romantic mystery that has no factitious basis A sergeant of City Hall police, an old friend of the writer, called him saide this morning at half past 9, and took him to the back of the court house, where an .immense concourse had assembled to witness the arrival England. The plan occurred to some of the prisoner. The steps of the court house and the yard adjoining straight and parallel, and bulky carts were crowded with sensation mou-

those rails, whereby the carriage wa made so easy that one horse would "Here he comes !" cried some one lraw four or five chaldrons of coal." In the crowd. Thus coal was conveyed from the A carriage, with a negro driver in livery drove up; out stepped an mines to the bank of the river Tyne. officer, then another officer, then s This mode was in practice in 1676 young man who marvelously resem- how much earlier is not known to us, bled Stokes, but was not Stokes, and probably to no one, for though a great then a third officer. The crowd made idea, it was like most other great a wild rush to get a glimpse of the ideas, thought of little account at the young man in the light overcoat, but time of its origin. Like Columbus' he was hurried into the Supreme method of making an egg stand on the court chamber, part 2, where his end by jarring it so as to break the overcoat was doffed and his services yolk, it was thought to be too simple for the day ended. Meanwhile Stokes to deserve any praise. Nevertheless, himself was quietly ushered into out of this simple idea sprang oneco irt by the park entrance, attended hundred and fifty years afterwards AND ALL KINDS OF CASTINGS by two officers in plain clothes. Not he modern railway. It had been noticed by chemists more than half a dozen persons recthat flame cannot be made to pass ognized him.

through a tube of small diametr. In "What is the meaning of that?" asked the reporter of the police ser- the hands of Sir Humphrey Davy,
